NACIONALNIM SAVEZIMA JADRANSKO - PODUNAVSKIH ZEMALJA

Poštovani prijatelji,

Dozvolite mi da Vas u ime RAJP organizacije (Ribolovna Asocijacija Jadransko - podunavskih zemalja) pozovem da uzmete učešće na 7. KUP-u Jadransko - podunavskih zemalja koji organizuje članica RAJP-a Crna Gora, u disciplini "mušičarenje" (Fly fishing).

Kup će se održati od 8. 9. i 10. jula 2016. godine u Kolašinu, gradu na sjeveru Crne Gore, na rijeci Tari.

Propozicije o načinu lova, informacije o smještaju, prijave i ostale informacije možete pronaći u Biltenu koji Vam dostavljam u prilogu pisma. Kotizacija po jednoj ekipi iznosi 250,00€, a svaka zemlja može da prijavi po tri ekipe (ekipa broji 3+1 takmičar). U nadi da ćete se pridružiti u sportskom nadmetanju sa zemljama Jadransko-podunavske regije, očekujemo učešće Vaše zemlje i molim Vas da, ukoliko odlučite da učestvujete na ovom takmičenju, na vrijeme prijavite Vaše ekipe.

Prilog: Bilten 7. KUP-a.

Srdačan pozdrav,

Nikola Milić

Predsjednik Saveza sportsko ribolovnih organizacija Crne Gore

TO NATIONAL ASSOCIATIONS OF ADRIATIC- DANUBIAN COUNTRIES

Dear friends and associates,

Allow me to invite you on behalf of RAJP organization (Fishing Association of Adriatic-Danubian countries) invite you to take part at 7th CUP of Adriatic-Danubian countries, which is organized by a member of RAJP, Montenegro at the discipline "Fly Fishing".

The CUP will take place on 8th,9th and 10th of July 2016 at Kolašin, city located in northern part of Montenegro, on the river Tara.

Propositions on fishing patterns, information about accommodation, applications and other information you can find in the bulletin that you will find as an attachment to this letter.

Registration fee per team is :250,00€, and each country may apply up to three teams (team size is 3+1 contestants). We hope that you will join the sports competition with the rest of the Adriatic-Danubian countries, we expect the participation of your country, and please if you decide to take part at this competition, you send your applications on time.

Attachment: 7th CUP Bulletin.

Best regards,

Nikola Milić,

President of Montenegro Association of Sports Fishing

Poziv

Poštovani prijatelji mušičari,

Imam čast i zadovoljstvo da vas pozovem da učestvujete na VII Jadransko-podunavskom kupu, koji će se održati u našem gradu Kolašinu od 8-10 jula 2016. god. na revirima kojima gazduje naš klub.

Naš klub na teritoriji Opštine Kolašin gazduje sa oko 287km rečnih tokova i Kapetanovim jezerom. Kako naše vode pripadaju crnomorskom i jadranskom slivu, veoma je zastupljena raznolikost ribljih vrsta. Tako se na Tari, i njenim pritokama love vrste crnomorskog sliva, kao što su potočna pastrmka, lipljan, mladica, a na Morači i njenim pritokama zastupljene su potočna pastrmka, lipljan (koji je davnih 70-tih godina prenesen iz Tare), strun (Salmo Dentex), glavatica (Salmo Truta Marmoratus), dok je na Kapetanovom jezeru zastupljena zlatovčica. Napominjem da je populacija ribe u svim našim rijekama autohtona, i naš je trud usmjeren na očuvanju autohtonih vrsta.

Imajući sve ovo u vidu, i zahvaljujući prelijepoj prirodi, i bistroj i providnoj vodi, postoje odlični uslovi za razvoj mušičarskog sporta, i u tom cilju naš klub ulaže velike napore kako bi se rijeke sačuvale od

krivolova i očistile od raznog čvrstog otpada, tako da se vodi permanentna akcija lovočuvarske službe, i volontera, kako bi se naše rijeke, i jezero doveli u takvo stanje, da se svakom ribolovcu obezbijedi prijatan boravak.

U tu svrhu organizovani su mušičarski reviri, C/R na rijeci Tari u samoj okolini grada i to u dužini od 8km, na rijeci Plašnici, pritoci Tare, u dužini od 7km, kao i na rijeci Mrtvici, pritoci Morače, u dužini od 2km. Takođe, ulažu se naponi da se srede i označe ribolovačke staze, i da se obezbijedi komfor, kako bi se omogućilo ribolovcima da imaju maksimalno uživanje boraveći pored naših rijeka.

Poštovani prijatelji, još jedanput vas pozivam da svojim učešćem uveličate ovo takmičenje, a mi iz organizacionog odbora ćemo uložiti sve napore da ovo takmičenje protekne u najboljem redu, i da svaki učesnik, i gost provede prijatne dane u našem gradu, i na našim rijekama.

Bistro.

Predsjednik FFC Maniro

Kolašin 18.03.2016.

FLY FISHING CLUB „MANIRO“

Invitation

Respected friends Fly fisherman,

We have an honor and a pleasure to invite you to take part in 7th Cup of Adriatic-Danubian countries which will be held from 8th until 10th of July 2016. year in Kolašin in fishing areas which are managed by our club.

Our club manages around 287 km of river streams and Kapetan lake in the Kolašin municipality. As our rivers belong to both Adriatic and Black Sea basin, we have a very diverse selection of fish species.

Tara river is inhabited by Black Sea basin species which are brown trout, grayling, and huchen (Danube Salmon), while river Morača which belongs to Adriatic basin is inhabited by brown trout, grayling (which was implemented in 1970s), Salmo Dentex (Strun) and Salmo Marmoratus (Marble Trout). In Kapetan Lake we have lake trout (Salvelinus alpinus). The population of fish species in our rivers are all native and our efforts are pointed towards maintaining the native species.

Considering all of this, and thanks to the beautiful nature, crystal clear waters, there are perfect conditions for further development of fly fishing sport.

With that goal in mind our club is investing great efforts to protect rivers from poaching, to clean the rivers from various hard waste, and therefore there is a permanent fish keeping action implemented by our fish keeping services and our volunteers, so that we can provide every fisherman a pleasant stay.

For that purpose we have organized a fly fishing areas, on river Tara around the town in length of 8km, on river Plašnica tributary of Tara, in length of 7 km, as well as on river Mrtvica, Morača tributary in length of 2 km. In addition efforts are invested in clearing and marking of trails and providing comfort, so that we could provide maximum pleasure to every fisherman that comes to our rivers.

Respected friends, one again I invite you to participate and magnify this competition with your presence. While the organizing committee will ensure that the competition is held in orderly fashion and that every contestant and guest spend pleasant days in our town and on our rivers.

Bistro.

President of FFC "Maniro"

Mile Lazarević

Kolašin 18.03.2016.

O KOLAŠINU

Kolašin pripada sjevernom i središnjem području Crne Gore, smješten je na desnoj obali Tare, na 960 metara nadmorske visine. Zajedno sa okolinom čini veoma značajno klimatsko, hidrogeološko i ekološko čvorište Crne Gore i Blkana. I ako među visokim planinama, kolašinski kraj je pristupačan i saobraćajno dobro povezan sa bližom i daljom okolinom.

Kao planinska turistička destinacija, Kolašin svoj razvoj zasniva na zimskom i ljetnjem turizmu, jedan je od najatraktivnijih i najmodernijih turističkih centara u Crnoj Gori i regionu.

Ponuda Kolašina je raznovrsna i može da zadovolji ukuse i potrebe starih i mladih, onih kojima je do mira i onih koje privlači avantura i uzbuđenje. I sam boravak u ovom kraju pruža sve pogodnosti vazdušne banje. Planinska klima, nadmorska

visina i čist vazduh, uz zdravu hranu, garantuju osvježenje i oporavak.

Zahvaljujući cinjenici da teritorija opštine Kolašin pokriva dva sliva, Crnomorski i Jadranski a sam grad leži na tri rijeke i postoje svi uslovi za razvoj sportskog ribolova i ribolovnog turizma. U tu svrhu osnovani su mušičarski reviri na rijeci Tari i Plašnici koje pripadaju Crnomorskom slivu. Dužine ovih revira su oko 15km. U njima se nalaze autohtone vrste riba ovoga područja i to potočna pastrmka, lipljan mladica. Rijeka Morača sa svojom pritokom Mrtvicom pripada Jadranskom slivu. U njima egzistiraju autohtone vrste riba ovog sliva, a to su potočna pastrmka, mekousna, strun i glavatica. Pored autohtonih vrsta ovaj sliv naseljava i lipljan, koji je ubacen 70-tih godina. Na rijeci Mrtvici nalazi se mušičarski revir u dužini oko 2 km.

ABOUT KOLAŠIN

Kolašin belongs to northern and midland area of Montenegro, Kolašin is located on right bank of Tara at the altitude of 960 meters. Together with its environment Kolašin makes a very significant climatic, hydro geological and ecological knot of Montenegro and Balkan.

Although located among tall mountains, Kolašin is very accessible and well connected to other cities in Montenegro.

As a mountain tourist destination, Kolašin is basing its development on summer and winter tourism and its one of most attractive and modern tourist centers in Montenegro and region.

Kolašin has a very diverse offer, and can satisfy needs and tastes of both elderly and young tourists. It offers peace and quiet for those who want to rest and relax and various activities for those seeking adventure and thrill. The stay in Kolašin has the effect of air spa, the mountain

climate, clean air, healthy food, are guarantees of refreshment and recovery

Kolašin municipality covers two different basins Adriatic and Black Sea, and the city itself lies on 3 rivers, which creates perfect conditions for development of sports fishing and fishing tourism. With that purpose fly fishing areas were created on rivers Tara and Plašnica both of which belong to Black Sea basin. Length of these fishing areas is around 15 kilometers, and they are inhabited by native species of this area, and those are brown trout, grayling and huchen (Danube Salmon).

River Morača with its tributary Mrtvica belongs to Adriatic basin. These two rivers are inhabited by native species which are : brown trout, Adriatic trout(soft mouth trout), *Salmo Dentex* and marble trout (*Salmo marmoratus*). In addition to native species this basin is inhabited by grayling which was implemented durring the 1970's. On river Mrtvica there is a 2 km long fishing area.

TARA

Rijeka Tara nastaje ispod planine Komovi, spajanjem rječica Opasanice i Veruše, u mjestu Han Garančica, i pripada Crnomorskom slivu. Dugačka je 144 km i kod mjesta Šćepan Polje sastaje se sa rijeko Pivom, i čine rijeku Drinu.

U svom donjem toku Tara pripada Nacionalnom parku Durmitor sa veličanstvenim kanjonom koji je najdublji u Evropi, a drugi po veličini u svijetu.

Treba napomenuti da je basen Tare zaštićen od strane UNESCO-A po kriterijumu čovjek i biosfera

Jedan od najatraktivnijih i najpristupačnijih djelova rijeke Tare je dio koji prolazi kroz Kolašin, planinski gradić na desnoj obali ove rijeke. Veoma pristupačan teren i najrazličitiji oblici rječnog toka čine ovaj dio Tare najprivlačnijim za sve vrste ribolova. Bilo da koristite spin ili fly tehniku, na ovom dijelu rijeke ćete podjednako uživati. Kristalno bistri virovi i brzaci kriju kapitalne primjerke pastrmke, lipljana i mladice, koji se mogu loviti gotovo čitavog dana.

River Tara is created under mountain Komovi, by merging of two smaller rivers Opasnica and Verusa, in place Han Garančica, and belongs Black Sea basin. River Tara is 144 km long and in the place called Šćepan Polje meets river Piva and creates river Drina. In its lower stream Tara belongs to Durmitor National park with its magnificent canyon which is deepest canyon in Europe and 2nd deepest in the world. It should be mentioned that Tara riverbed is protected by UNESCO by criteria man and the biosphere.

One of the most attractive and most accessible parts of Tara is a part that runs through Kolašin, a small town on right bank of this river. Very accessible terrain and various shapes of river stream make this part of Tara very attractive for all kinds of fishing. Whether you use spin or fly techniques, on this part of the river you will enjoy equally. Crystal clear whirlpools and rapids hide capital samples of brown trout, grayling, and huchen which can be fished almost all day.

MORAČA

Tipičan predstavnik krečnjačkih Rijeka. Izvire u sjevernoj Crnoj Gori, ispod planine Rzač i pripada Jadranskom slivu. Dugačka je 113 km i teče od sjevera ka jugu. Nakon spajanja sa svojom najvećom pritokom Zetom teče Zetskom ravnicom sve do svog uliva u Skadarsko jezero.

Morača spada u kanjonske rijeke jer je njen tok gotovo čitavom dužinom ispresijecan raznim klisurama i kanjonima. Najveći, i jedan od najljepših u Evropi, je kanjon Platije. Predjele plitkih i brzih dionica smjenjuju duboki virovi okruženi visokim stijenama.

Ljubitelji kanjonskog ribolova uživaće podjednako koristeći spin ili fly način ribolova. Bogata je salmonidnim vrstama, pastrmkom i lipljanom, a također Moraču nastanjuju strun i glavatica, endemske vrste pastrmke.

A typical representative of limestone rivers. It springs in northern part of Montenegro, under mountain Rzač and belongs to Adriatic basin. Its 113km long and runs from north to south, after merging with its largest tributary Zeta it runs through Zeta plains all the way down to the Skadar lake.

Morača is considered a canyon river, because its stream runs through steep cliffs and canyons. Largest canyon is Platije and it is one of the most beautiful in Europe. Regions of shallow and fast streams are intersected by regions of deep water and tall cliffs.

Fans of canyon fishing, will be able to enjoy both fly and spin disciplines equally.

Morača is rich with salmonoid species of trout, brown trout and grayling, and it is also inhabited by two endemic species of fish, Salmo Dentex (Strun) and Salmo Marmoratus (Marble Trout).

PLAŠNICA

Rijeka Plašnica je najveća pritoka Tare, izvire ispod planine Sinjajevina. Čitavim svojim tokom, oko 7 km, je Fly fishing revir, od njenog uliva u Taru pa uzvodno. Za nju možemo reći da je najveće prirodno mrijestilište rijeke Tare.

U svom toku se smjenjuju brojni virovi i brzaci, a vegetacija koja je prati daje ovoj maloj rijeci posebnu ljepotu i kao takva je veoma interesantna za ribolov.

Nastanjuju je potočna pastrmka i lipljan, a nerijetko se može vidjeti i po koja mladica.

The River Plašnica is the largest confluent, flowing beneath the mountain Sinjajevine. The length of fly fishing districts is 3 km from its inflow in the Tara River and upstream. It can be said that it is the greatest natural spawning of the Tara river.

In its course numerous whirlpools and rapids are alternating, and surrounding gives this small river special beauty and as such is very interesting for fishing.

It is inhabited by the brown trout and grayling, and often can be seen hucho hucho .

MRTVICA

Mrtvica je klasična planinska rijeka, krečnjak-og karaktera. Karakteristično krečnjačko dno daje ovo rijeci crvenkastu boju u gornjim, a azurno zelenu boju u donjim djelovima njenog toka.

Izvire ispod Trebijesa, i u svom toku dužine 9 km teče uklesana u istoimeni kanjon. Jedna je od najljepših rijeka Balkana, i sa svojim kanjonom poznata je u svijetu po svojoj ljepoti. Njena okolina je bukvalno netaknuta od strane ljudske ruke, pa je samim tim obrasla raznim oblicima flore što mušičarenju na njoj predstavlja veliki izazov čak i za iskusne mušičare.

Nastanjuju je samo salmonidne vrste riba i to potočna pastrmka, lipljan i glavatica. Poznata je po kapitalnim primjercima pastrmke i glavatice.

Mrtvica is a classic mountain river with calcareous character. Characteristic calcareous bottom gives it a reddish color in top, and the blue green color at the lower parts of its course. It flows under Trebijesa, and its course 9 km long it flows carved in the canyon with the same name. One of the most beautiful rivers in the Balkans, with its canyon is known world-wide for its beauty.

Its environment is virtually untouched by human hands, and is therefore covered with various forms of flora as fly fishing on it is a great challenge even for experienced fly-fishermen. Only salmonid species inhabit it, such as brown trout, grayling and glavatica -salmo marmoratus.

It is famous for capital specimens of brown trout and glavatica -salmo marmoratus.

TAKMIČARSKA STAZA COMPETITION VENUE	GRAD TOWN	DRŽAVA COUNTRY	UDALJENOST DISTANCE
KOLAŠIN	SARAJEVO (BiH)	BOSNIA AND HERZ.	273 km
KOLAŠIN	LJUBLJANA (SLO)	SLOVENIA	851 km
KOLAŠIN	PODGORICA (MNE)	MONTENEGRO	72 km
KOLAŠIN	BUDIMPEŠTA (HUN)	HUNGARY	739 km
KOLAŠIN	BUKUREŠT (ROM)	ROMANIA	817 km
KOLAŠIN	SOFIJA (BUL)	BULGARIA	493 km
KOLAŠIN	BELGRADE (SRB)	SERBIA	372 km
KOLAŠIN	SKOPJE (MAK)	MACEDONIA	295 km

KOLAŠIN	BRATISLAVA (SK)	SLOVAKIA	932 km
KOLAŠIN	PRAG (CZ)	CZECH REPUBLIC	1260 km
KOLAŠIN	ROMA (ITA)	ITALY	1499 km
KOLAŠIN	WIEN (BEČ) (AUT)	AUSTRIA	976 km
KOLAŠIN	BERLIN (GER)	GERMANY	1618 km

Napomena: Gosti koji dolaze iz Bosne i Hercegovine, prema našoj preporuci, treba da izbjegavaju granične prelaze kod Foče i Pljevlja zbog dosta loše putne infrastrukture. Preporuka je da gosti izaberu prelaze Trebinje – Nikšić ili prelaz sa Srbijom Uvac-Rudo a zatim prelaz Prijepolje – BijeloPolje (Preporuka za goste koji idu preko Sarajeva)

Note: Guests coming from Bosnia and Herzegovina, we would recommend that you avoid border crossings at Foca and Pljevlja because of quiet bad road infrastructure. We recommend that guests use border crossing at Trebinje-Nikšić, coming from Serbia we would recommend Uvac-Rudo border crossing. For guests coming from Sarajevo we would recommend border crossing Prijepolje-Bijelo Polje.

TAKMIČARSKA STAZA

Takmičarska staza za VII kup Jadransko Podunavskih zemalja nalazi se na rijeci Tari, u Opštini Kolašin. Staza počinje od centralnog mosta, na ulazu u grad Kolašin, a završava se oko 8 kilometara nizvodno, u mjestu Trebaljevo. Sve takmičarske pozicije su lako pristupačne čitavom dužinom. Ovaj dio Tare karakteriše čista i bistra voda, i stabilan vodostaj zbog kojih je moguće mušičariti skoro svih 365 dana u godini. Čitavom dužinom staze naizmjenično su isprepletani brzaci, široki prelivi i srednje duboki virovi. Taru u

ovom dijelu naseljavaju lipljan, potočna pas-trmka i mladica.

Trening staza je podijeljena u dva sektora, i to SEKTOR I , na Tari, na teritoriji Nacionalnog Parka Biogradska gora, u dužini od 3 km, počinje u mjestu Sjerogošte, restoran kod Mita, a završava se u mjestu Štitarica, gdje se istoimena Rijeka uliva u Taru.

SEKTOR II, na pritoci rijeke Tare, Plašnici, koji počinje od uliva Plašnice u Taru, pa uzvodno dužinom oko 2 km, do Djevojačkog mosta.

NAPOMENA: Pored planiranih sektora za trening, takmičarima su na raspolaganju i slobodne vode na rijeci Tari.

COMPETITION TRAIL

Competition trail for VII cup of Adriatic Danubian countries is located at river Tara, in municipium Kolašin. Trail at central bridge, at the entrance of town Kolašin, and ends about 8 km downstream, at the place Trebaljevo. All contesting spots are easily approachable in full length. This part of Tara is characteristic by its crystal clear waters and a very stabile water levels, which in turn make it possible to fly fish almost 365 days a year. The entire length of the trail is intersected by rapids, wide crossings and mid depth whir-

ools. Tara in this part is inhabited by grayling, brown trout and huchen (Danube Salmon) .

Training trail is split in two sectors, and those are SEKTOR I , at Tara, on the territory of National Park Biogradska gora, in length of 3 km, it begins at the place Sjerogošte, restaurant at Mito, and ends at the place Štitarica.

SEKTOR II, is located at Tara's tributary, Plašnica, which begins at merging point of Tara and Plašnica, and then upstream in length of 2km.

NOTE: *In addition to training sectors, contestants have on their disposal open waters on river Tara.*

SEKTOR A

Sektor A počinje od gradskog mosta i završava se u mjestu Rogobore.

Sektor A at the city bridge and ends at the place Rogobore.

SEKTOR B

Sektor B počinje od mjesta Rogobore i završava se u mjestu Bakovici, gdje se Rijeka Plašnica uliva u Taru.

Sektor B begins at the place Rogobore and ends in the place Bakovici, where river Plašnica flows into Tara.

SEKTOR C

Sektor C počinje od uliva rijeke Plašnice i završava se u mjestu Trebaljevo, zaključno sa mostom.

Sektor C begins at the river flow of Plašnica and ends at the place Trebaljevo, conclusive with the bridge.

PRAVILA TAKMIČENJA I RIBE KOJE SE LOVE

Na VII Kupu Jadransko Podunavskih zemalja, Kolašin 2016, će se primjenjivati zvanična pravila FIPS-Mouche federacije.

- Dozvoljen je lov isključivo jednom mušicom bez povratne kuke
- Takmičenje se odvija u tri sektora, A – B – C
- Ulovljena riba se čuva u propisanim čuvarcima
- Organizator obezbjeđuje čuvarke za svakog takmičara.

Preporuka organizatora:

Svaka ekipa koja učestvuje na Kupu JPZ može povesti svoje kontrolore, kojima će biti omogućeno da, zajedno sa domaćim kontrolorima, vrše kontrolu takmičara i ulovljene ribe.

RULES OF THE CUP AND WHICH SPECIES ARE FISHED

At the VII Cup of Adriatic Danubian countries, Kolašin 2016, the official rules of FIPS-Mouche federation.

- *Fishing on single fly with barbless hook.*
- *Competition will be held in three sectors, A – B – C*
- *Caught fish will be held in prescribed fishing smacks.*
- *Organizer will provide fishing smacks for each contestant.*

Organizer recommendation:

Each team participating in the Cup JPZ may bring their own controllers, which will be able to, together with local controllers, exercise control of the contestant and caught fish.

Ribe koje se love i minimalne dužine koje se boduju predstavljene su tabelom:

Fish species and minimum length will be presented in the following table:

 LIPLJAN / GRAYLING	MINIMALNA DUŽINA / MINIMAL LENGTH: 20 cm	
 POTOČNA PASTRMKA / BROWN TROUT	MINIMALNA DUŽINA / MINIMAL LENGTH: 20 cm	
 KALIFORNIJSKA PASTRMKA / CALIFORNIAN TROUT	MINIMALNA DUŽINA / MINIMAL LENGTH: 20 cm	
 MLADICA / HUCHEN (DANUBE SALMON)	MINIMALNA DUŽINA / MINIMAL LENGTH: 20 cm	

PROGRAM TAKMIČENJA ZA

VII KUP JADRANSKO PODUNAVSKIH ZEMALJA – RIJEKA TARA KOLAŠIN - CRNA GORA OD 8. DO 10. JULA 2016. GODINE

I DAN – ČETVRTAK, 7. JUL 2016.

- Do 20h dolazak ekipa u Kolašin,
- Prijava na rezervisani smještaj,
- Verifikacija ekipa u Hotelu Djevojački Most

II DAN PETAK 8. JUL 2016.

- 7h - 8h - Doručak
- 8h - Okupljanje ekipa ispred Hotela Djevojački Most
- 9h - 12h - Zvanični trening
- 13h - 15h - Ručak
- 16h - Sastanak kapitena ekipa i žrijeb sektora
- 19.30h - Ceremonija otvaranja i svečani koktel

III DAN SUBOTA 9. JUL 2016.

- 6h - 7h - Doručak
- 7h - Okupljanje ekipa ispred Hotela Djevojački Most
- 7.15h - 9h - Odlazak takmičara na takmičarsku stazu
- 9h - 12h - Takmičenje u SEKTORU I
- 12h - 15.00h - Ručak
- 15.00h - Okupljanje ekipa ispred Hotela Djevojački Most
- 15.15h - 17.00h - Odlazak takmičara na takmičarsku stazu
- 17.00h - 20.00h - Takmičenje u SEKTORU II
- 21.00 - Večera i slobodne aktivnosti

IV DAN NEDELJA 10. JUL 2016.

- 6h-7h - Doručak
- 7h - Okupljanje ekipa ispred Hotela Djevojački Most
- 7.15h - 9h - Odlazak takmičara na takmičarsku stazu
- 9h - 12h - Takmičenje u SEKTORU III
- 15h - Proglašenje pobjednika, svečani ručak i zatvaranje takmičenja.
